

## 2010 FPD Product Guide

FPD's 2010 Product Guide is now available. This year's edition includes a complete listing of the products available. In the guide you'll find pictures of Kerckhaert shoes, along with available sizes, recommended nails, and information regarding symmetrical shoes. You'll also find charts showing the width, length, and FIA measurements for most of the shoes. Ask your farrierproducts™ dealer for a copy today!

### KERCKHAERT PRIDE 1/4" X 3/4"

We are pleased to announce the arrival of Kerckhaert's new Pride 1/4" x 3/4" shoe. Versatility in a one shape pattern best describes this new flat shoe. It will be ideal for use with young roping horses and training for sliding horses. Also useful for other disciplines where a light stamped shoe is required. No crease. Symmetrical.

The one shape shoe is available in sizes 00, 0, 1 and 2. Punched for 4 1/2 Race nail.

*Samples are available upon request.*

## MEISTER HUFEISEN SIZING

We continue to receive questions about the sizing of the Meister shoes from Kerckhaert. Because sizing was set for the German market the number on the Meister shoe is approximately two sizes larger than the normal Kerckhaert sizing.

**Example: Meister 4 = Kerckhaert 2**

### KERCKHAERT STEEL TRAINING PLATES

We have received notice that as stock of the DR 16x8 is depleted, it will be replaced with the Steel Kings Lite 16x8. The Steel Kings Lite is a drop forged shoe and as such offers additional design improvements. Kerckhaert will continue to manufacture and distribute the DR 15x7 until further notice.

*Samples are available upon request.*

# Symmetrical Shoes

Although a shoe might have the sizing stamped on the left or right branch, a “symmetrical” shoe could be used on either foot.

## AMERICAN STEEL SERIES
